REPORT OF THE EVENT

The ByteBusters Club of Computer Application Department has successfully organized a SD Competition Named “CodeCraze Mania” on 4th April, 2026.

Objectives:

- To ignite curiosity and enhance technical skills among first and second-year students through engaging competitions.
- To develop problem-solving abilities, creativity, and teamwork in a competitive environment.
- To provide a platform for students to showcase their knowledge in technical quizzing and webpage designing.
- To boost students confidence and encourage them to apply their learning practically in real-world scenarios.

Venue: Block 5, Room no.– 203 to 208

Time: 11:00 AM onwards

Contents:

- **Buzzer Quiz Competition (1st Year):**
A team-based technical quiz designed to test students' knowledge in programming fundamentals, computer basics, and logical problem-solving through a fast-paced buzzer format.
- **Webpage Designing Competition (2nd Year):**
An individual competition focused on creating visually appealing and functional web pages using HTML, CSS, and basic scripting, with an emphasis on UI/UX design principles.

Outcomes:

- Students applied their theoretical knowledge in a practical setting, enhancing their problem-solving and design skills through competitive participation.
- The event encouraged creativity, teamwork, and technical proficiency in programming and web development.

Number of Participants: 186
